

**Time for fresh,
fresh in time!**

www.agroqueens.com

About Us

GLOBALG.A.P.

Agro Queens is a leading supplier of fresh fruit & vegetables located in the heart of Europe's - the largest apples growing area. We use the infrastructure of our producers to ensure the best quality of the goods we supply.

Offer & provide:

- Fresh, conventional and organic fruit and vegetables
- Full range of attractive packaging according to individual preferences
- First-class technical support
- Many years of export
- Experience the highest quality & safety standards **proved by GFSI (Global Food Safety Initiative).**

Operate for:

- Retail chains
- Wholesalers
- Distributors and processing plants

We provide our services mainly to the European Union countries.

Guarantee:

- Fixed prices and delivery in time
- Flexibility in logistic
- Product traceability
- Complete pre-sales and post-sales service

Do you love fresh fruit and vegetables?

Then we should get in touch.

We, the Agro Queens,

define ourselves as a professional link between the producers of fruit and vegetables and the food retail trade. Connecting cooperatives we can supply big and demanding customers. We distribute high-quality products. Together with our producers, chosen according to strict criteria, we guarantee products of high and constant quality.

Our Mission & Priorities

To supply the best and freshest produce available with the optimum shelf life, while adding the least possible time and costs.

We are able to do so because we have the entire chain in our own hands as a consortium. Thanks to this, we guarantee our growers the sale of their products and our customers a wide range of fresh fruit and vegetables.

- The production and supplying of fresh, secured and high quality products, while adding the least possible time and costs.
- Control its products from cultivation and harvest to delivery at the final customer.
Individual system which meets the requirements of the International Featured Standard (IFS Broker), GLOBAL GAP Chain of Custody and Organic Certificate.
- Test varieties, minimize pesticides, favor sustainable cultivation and consider social standards of production.
- We ensure compliance with the code of ethical conduct.
- For our production we define the varieties, qualities and plant treatment products to meet the consumer's highest standard requirements for product quality and security.

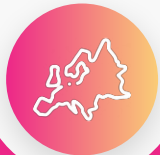

Our Actions:

Transfer and control of trade conditions for producers

Distribution all over Europe

Packing according to commercial requirements

Pooling of goods of higher volume

Conceptual sale of goods according to agreements with trade partners

Guarantee of production and sales transparency

Guarantee of steady flow of goods both in quantity and quality

Flexible procurement of goods, nationally and regionally

Fruits & vegetables packing station

We:

- Control & pack according to your individual requirements.
- Are able to react in short terms to modified requirements.
- Offer you a certified quality management.

Delivery:

Our production facilities and services can help keep produce fresh and in great condition. Time and freshness is a priority for our team. We cooperate only with trusted transportation companies. Our flexibility gives us full range of ways of delivery.

Packaging:

We offer a full range of attractive packaging based on individual preferences. We offers the highest quality fruits and vegetables during each season and adapting our production, packaging lines and standards to needs of our customers.

- Golden delicious

Apples for:

- Mousses/ pure
- Juices
- Concentrates
- Drying cider
- Baby food
- Peeling

We also deliver vegetables for industry such as:

- Carrot
- Onion
- Beetroot
- White/ Red cabbage
- Celeriac
- Others

For more info - please contact us by phone or by email.

Our production & supplier partners

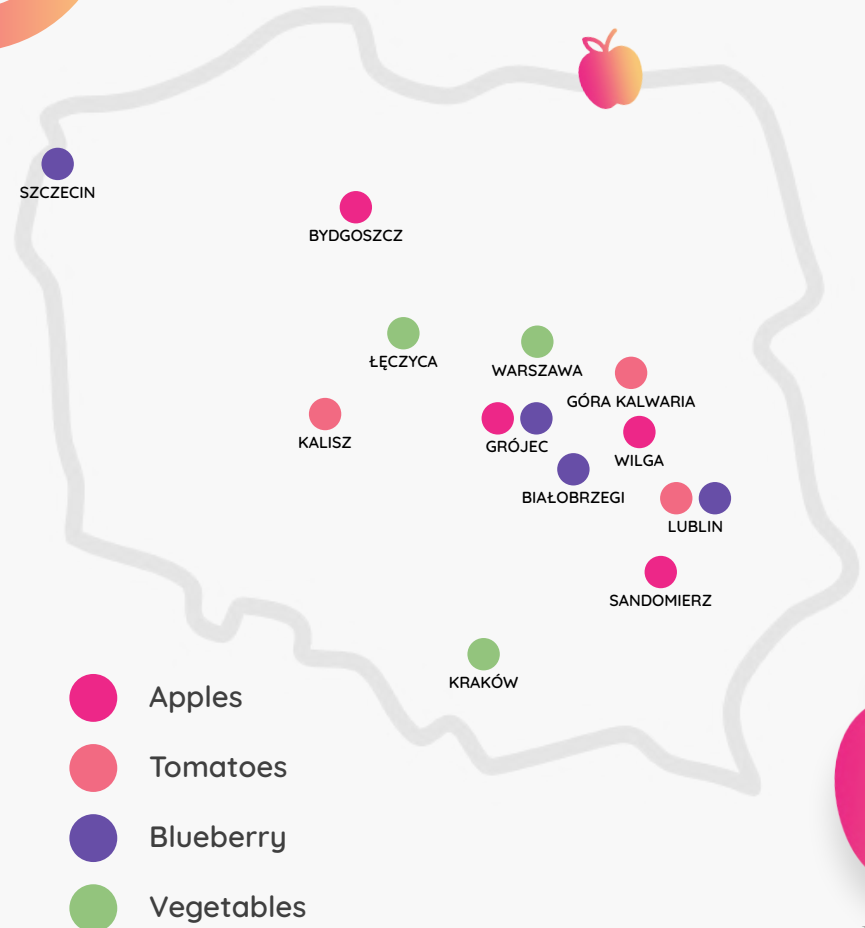

We choose our production and supply partners according to various quality and quantity criteria as:

location, capacities, certifications and technical standard.

Based on these, we can guarantee a high quality-level of our products all through a season. Regular audits and producer seminars positively connect us with our partners.

Our requirements:

- Controlled cultivation
- Consistent product quality
- The traceability of the origin of the products
- The openness of the partner to innovative future solutions of problems of the fruit and vegetable branch.
- Reliable international quality assurance systems in production, packing and transport.
